SDSU Spring Design Day 2016

Our Capstone Design Class (CivE 495) held their Design Day on May 4, 2016. We wanted to give you a recap of all of the exciting projects and participation. There were over 60 industry representatives in attendance. **Professor John Prince** and **Professor James Haughey** have been at the helm for this class for the last 6 semesters and every year we have strong support from the community. There were over 100 students in the class, with 17 teams on 9 distinct projects.

Professor John Prince and **Professor James Haughey** would like to give special recognition to the people who repeatedly have joined us in supporting the students and SDSU on Design Day:

Jim Rasmus – Black & Veatch (a team mentor several times)
Minjie Mei – City of Santee
Matt Capuzzi – Kimley-Horn & Associates (a team mentor several times)
Nathan Schmidt – Fehr & Peers
Ryan Zellers – Michael Baker International (a team mentor several times)
Mario Ingrassi – City of Chula Vista
Karen Islas – City of San Diego (one of our star students from Spring 2014!)
Janiene Knight – Wiseman SE
Zoubir Ouadah – County of SD

And many of the SDSU faculty including **Jessica Barlow, Natalie Mladenov, Thais Alves, Alicia Kinoshita, Sahar Ghanipoor-Machiani** and **Janusz Supernak**, (pictured) participate to make Design Day a success every year.

In order to see more photos from Design Day, please visit the class Facebook page:
